Guarding your security...

News Alert - July 2010

The new JA-82Y GSM/GPRS communicator

This new GSM/GPRS communicator offers you these impressive features:

- Reports events by SMS (to up to 8 numbers)
- Reports events by phone calls and voice messages (you can record up to 7 messages for different events - 1st message: 10 secs, alarm: 5 secs, fire, tamper, panic, fault or other event: 3 secs)
- Remote control and programming the system by phone (calling and using the voice menu or by using SMS commands)
- Remote control of the system (or home appliance) from authorized numbers (free)
- Remotely control and configure the system via free OLink software (ver.2.0 and higher)
- Transmit data to up to 2 monitoring stations - IP GPRS, SMS or CID
- Transfer images from a PIR-camera to a secure server
- Remotely upload firmware, language settings and text to the communicator using Olink

For more details on the next step forward in GSM communicator technology, please see the below link and contact us.
